Health of Live-Stock during September 1951.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrhagic-septicæmia, Anthrax, Foot and Mouth, Sheep-pox, Ranikhet, Gastro-entritis, and Contagious-goat pleuro-pnoumonia were encountered in the State during September 1951. Altogether 236 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 297 villages during the previous month. Prompt measures of control were undertaken by the department to check its spread and 4,580 animals in the infected villages and 117 cattle and 275 sheep and goats in two neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Press Note.

The "Jwala" of 26th October 1951 has published an article alleging that the Hon'ble Minister for Law and Labour got angry with a policeman on duty two weeks ago for stopping his car on the road near the railway goods shed, in order to give the right of way to a lorry and a bullock cart. The article is a mere fabrication and has no basis in fact. The Hon'ble Minister for Law and Labour is not aware of any such incident at all and he has had no occasion to threaten any policeman so far in his life.

It is regretted that currency should be given to such baseless allegations.
